LOOK FOR	WHY IT MATTERS	IONSPA APPROACH
Electrical specifications	Maximum output voltage and current give a clearer view of available electrical capacity.	Published output up to 24 volts DC, with an upper 2.5 Amps adjustment target - about 60 watts at the maximum operating point.
Session control	Preset and manual options help match a system to a home or professional routine.	HOME offers guided settings; PLUS and PRO add manual levels, programming, and Intelli-Drive management.
Long-term ownership	Manuals, replaceable wear parts, warranty terms, and service paths matter after purchase.	ionSpa provides product guidance, replaceable parts, documented coverage, and direct U.S. support.

Find the right fit: HOME for a straightforward personal routine, PLUS for added flexibility, and PRO for repeat professional sessions. Explore the interactive fit guide and full system comparison.

How this research was done

On November 3, 2026, we searched Amazon.com for 'ionic foot bath machine,' removed repeat placements and accessory-only results, and recorded 102 distinct complete-system listings. We captured visible prices for 101 listings and recent-purchase badges for 27. We then opened 15 selected product pages for a closer look at features and published electrical specifications. The 15-page review is a subset of the 102-listing screen.

What the snapshot can tell you

It shows the range of prices and advertised features visible at the time of review. It also helps you compare the information a seller makes available before purchase. Different bundles or variants can have separate listing IDs, so 102 listings do not mean 102 manufacturers or unique designs. Prices, badges, and product descriptions can change.

About the 60 watts figure

ionSpa's published 24 volts and 2.5 Amps upper operating point equals about 60 watts of available electrical capacity. Actual output varies by setting and water conditions. Compare controls, parts, warranty, and service alongside any power figure. More watts alone do not establish product quality or a health outcome.

Use the source index

The next page provides a direct source link for each of the 102 listings reviewed. The list is a dated research snapshot, not a live ranking or a recommendation of those products. You can use it to check the scope of our comparison.

The 102 source listings

Observed November 3, 2026. Each listing ID links to its source page. Price and recent-purchase badge are shown only when visible in the captured search results; a dash means none was displayed. The source list documents the screen, while 15 pages received deeper review.
